

TEACHER EDUCATION MIDTERM EVALUATION RESULTS- HISTORY/SOCIAL STUDIES

APRIL 2016

During the spring semester of the 2015-2016 school year, teacher education students in the History/Social Studies program participated in their student teaching clinic experiences. An online application system (i.e., *Qualtrics*) was used to facilitate the administration of the midterm evaluation to provide feedback to supervisors, advisors, and students. Results were aggregated across 14 individuals. The results were obtained through analyzing supervisors' responses on the student teaching final evaluation form for teacher education students in the History/Social Studies program. The purpose of this report is to display the overall results.

REPORT HIGHLIGHTS:

Key Findings

- ✓ The Average student rating score across all standards was a 2.53 (1 = “not making satisfactory progress”; 3 = “outstanding progress”).
- ✓ In general student scores on the final evaluation greatly improved from their midterm evaluation reports, as students increased the number of “outstanding progress” ratings in all domains.
- ✓ Students were most successful (received a rating of “outstanding progress” at a rate of 80.00% or above) in the following domain areas:
 - Plans and implements instruction based on knowledge of the academic principles, essential concepts, respect for language diversity and learning strategies appropriate to the discipline of History/Social Studies (H/SS). (NCSS 3.1)
 - Activates students' prior H/SS knowledge and experience. (NCSS 3.1)
 - Seeks out and uses resources from a variety of sources to create meaningful and challenging
 - Sequences learning tasks into coherent units of instruction derived from the H/SS curriculum in an effort to effectively scaffold student learning. (NCSS 3.1)
 - Creates positive and supportive interactions with students by using respectful, appropriate, and effective verbal and nonverbal communication techniques. (NCSS 3.1)
 - Uses technology to enhance students' learning of H/SS. (NCSS 3.1, 1.8)
- ✓ Students could use improvement (received at least 1 rating of “not making satisfactory progress” and an average score of 2.20 or below) in the following domain areas:
 - Responds to the group or individual student's levels of H/SS understanding while teaching. (NCSS 3.1)
 - Constructs H/SS lessons that are adapted to diverse student needs based on understanding of students' different developmental levels and approaches to learning. (NCSS 3.1)
 - Makes connections between social studies domains (US history, world history, government/civics/political science, geography, economics, and behavioral sciences) as well

as with the other disciplines when discussing content knowledge. (NCSS 1.1, 1.2, 1.3, 1.4, 1.5, 1.6, 1.7, 1.8, 1.9, 1.10)

- o Creates opportunities to communicate with families in supportive and empowering ways, establishes respectful and collaborative relationships with families, and involves families in students' H/SS learning. (NCSS 3.1)

 - o Plans and implements H/SS instruction based on knowledge of the community context and of students as a group and as individuals. (NCSS 3.1).
- ✓ In regards to the Thematic Standards by the (NCSS) Students made great improvements in comparison to midterm evaluations with average scores across all domain areas increasing on the final evaluation

National Council for Social Studies (NCSS) Thematic Standards

Student teachers were assessed based on the following standards and results were averaged across standard items for all participants. Items were ranked on various scales ranging from (1) Basic, (2) Developing, (3) Proficient, and (4) Distinguished. Raters were told that most student teachers are typically at the Developing or Proficient level for most standards. **NOTE:** Items that contained NA responses were not factored into average standard scores and standards that consisted of all NA responses were left as NA for the average.
