## Integrated Bachelor's/Master's Program Student Teaching Evaluation Midterm Results: World Language Spring 2015

## Context

This survey is part of the set of surveys administered at key transitions points in the $\mathrm{IB} / \mathrm{M}$ program. This survey was administered to the university supervisors of the 4 members of the Spring $2015 \mathrm{IB} / \mathrm{M}$ World Language education cohort.

## Survey Content

- Information about the student teaching placement
- Professional characteristics
- General comments/feedback on the student's performance

## Methodology

The survey was administered using Qualtrics, an online survey tool. An email invitation was distributed to the placement supervisors of all of the students participating in internships. The data collection period was February $25^{\text {th }}$ to March 13 ${ }^{\text {th }}, 2015$ ( 3 weeks). A total of 4 surveys were completed (response rate $=4 / 4=100 \%$ ). All references to individuals/placement sites have been omitted to maintain anonymity.

The data are used for two types of reports.

- Individual-level report. This report was distributed to the individual student, the supervisor, the cooperating teacher, and the advisor.
- Program-level report. This report, which contains aggregate data, was delivered to the academic program.
- Disaggregated results are not reported across campuses, due to no or too few students enrolled in this focus area at the campus.

## Key Findings

- All student teachers were rated as making at least satisfactory progress on each of 16 performance standards, with the majority rated as making outstanding progress.
- In qualitative feedback, supervisors praised the professional and ethical demeanor of the student teachers.
- University supervisors encouraged their student teachers to continue to seek professional development opportunities to expand their skill set.

## Grade Level Placement (Check all that apply)

| Grade | Count |

| 6 | 1 |
| 7 | 0 |
| 8 | 1 |
| 9 | 2 |
| 10 | 3 |
| 11 | 3 |
| 12 | 3 |
| Ungraded | 0 |

For each of the students, the following scale is used to evaluate the teaching candidate:
3 = Student is making outstanding progress by effectively planning/implementing instruction to address this standard.
2 = Student is making satisfactory progress by making deliberate attempts to address this standard.
1 = Student is not making satisfactory progress and still remains weak in addressing this standard.
N/A = For use only in the midterm: means "not applicable" because this standard is yet to be covered.

Because satisfactory progress is the target for this learning experience, teacher candidates need to aim for a minimum rating of " 2 " as they seek to meet each standard. On the final, if the teacher candidate has mostly "2's" and five or more " 3 's," s/he will receive a letter grade of A. If the candidate has predominantly "2's," a grade of $A$ is awarded. If the candidate has mostly " 2 ' $s$ " and three " 1 ' $s$ ", $s /$ he will receive a $B+$. If the candidate has four "1's," $s /$ he will receive a grade of $B$. If there are five or more " 1 's," the teacher candidate will receive a grade of $B$ or below.
