

Integrated Bachelor's/Master's Program
STUDENT TEACHING EVALUATION FINAL RESULTS: MUSIC
SPRING 2016

Context

This survey is part of the set of surveys administered at key transitions points in the IB/M program. This survey was administered to the university supervisors of the 6 members of the Spring 2016 IB/M Music education cohort.

Survey Content

- Information about the student teaching placement
- Professional characteristics
- General comments/feedback on the student's performance

Methodology

The survey was administered using Qualtrics, an online survey tool. An email invitation was distributed to the placement supervisors of all of the students participating in internships. The data collection period was during the last two weeks of April, 2016. A total of 6 surveys were completed (response rate = 6/6 = 100%).

All references to individuals/placement sites have been omitted to maintain anonymity.

The data are used for two types of reports.

- **Individual-level report.** This report was distributed to the individual student, the supervisor, the cooperating teacher, and the advisor.
- **Program-level report.** This report, which contains aggregate data, was delivered to the academic program.
 - Disaggregated results are not reported across campuses, due to no or too few students enrolled in this focus area at the campus.

Key Findings

- 100% of all student teachers received a final grade of either A or A-.
- Student teachers were assessed as making outstanding or satisfactory progress on 27 out of 27 professional standards, with an average score of 2.75 out of 3 points.
- In qualitative feedback provided by supervisors, the student teachers were described as organized, having strong rapport with students, and being receptive to feedback.
- It was suggested that the student teachers could improve in behavior management, and being more confident in front of the classroom.
